### 1.1 Material Ledger Reconciliation

Step 1: Maizene Porter (Supply Chain Controller) sends an email to entire Opco when she ran Material Ledger.

 Subject: RE: Material Ledger P12 2021

Hi Team,

The material ledger is now executed for P12 2021.

Regards,

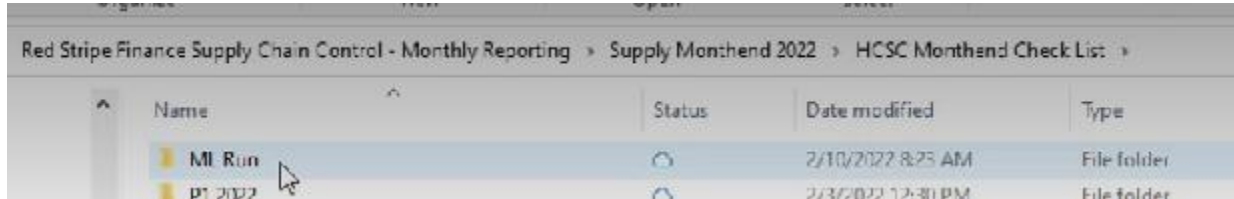

Maizene Porter | Supply Chain Business Controller  
 214 Spanish Town Road | Kingston 11 | Jamaica  
 (W) +1876 675 2088 (M) +1876 564 1456

Once she ran a Material Ledger, she already creates a file (Material Ledger file), you should take that file an open it.

Step 2: Open Material Ledger File in ML prelim Tab and save as new version, before any change.

Step 3: Remove columns without information. Add a concatenate column with plant and material. In column “E” filter per Ending Inventory

Step 6: You should obtain this information from next fields

- 1-. “Standard cost per unit”
- 2-. “Actual cost per unit”
- 3-. “Actual Value”
- 4-. Difference”

Standard cost per unit you obtain divide Value/ Quantity to obtain this

| Quantity  | Currency | Value        | Standard cost per unit |
|-----------|----------|--------------|------------------------|
| 69,888.00 | JMD      | 5,867,378.50 | =N4/L4                 |
| 84.00     | JMD      | 662,646.69   | 7,888.65               |
| 5,760.00  | JMD      | 385,725.72   | 66.97                  |
| 792.00    | JMD      | 14,405.59    | 18.19                  |
| 42.00     | JMD      | 142,066.33   | 3,382.53               |
| 12.00     | JMD      | 15,809.86    | 1,317.49               |
| 132.00    | JMD      | 38,548.52    | 292.03                 |
| 899.00    | JMD      | 1,255,120.58 | 1,396.13               |

Actual cost per unit-. You must enter to sap, transaction MM60 to get standard cost with VLOOKUP for Material with a concatenate.

**ONLY when a difference is on SAP vs MB5L you need to do the steps below, if not the process end on this point.**

ROH and AUX (ROH) need to sum in SAP amount. The difference you can find on Inventory Analysis file. Copy the information on a new tab according to the GL account (12103001) and then do a validation to find the variation material/plant with a VLOOKUP. Once we add the amount, we need to add a column with a difference.

Continue with HALF, FERT, VERP and do the same steps, is there is variance is necessary to copy the Ainventry from the inventory analysis file in another tab.

Be sure to add the account's inventory according to the tab, if the category will include more than one account add below the information we paste.
